AAEE Academy of Early Career Engineering Educators Mentor EOI

The important role of the Professional Development Mentor is to actively support early career academics while they are members of the Academy. Mentors are selected on the basis of their expertise, experience in engineering education, willingness to share their time, skills and general professional wisdom with early career academics. While specific mentoring activity is negotiated between the mentor and Early Career Academy (through the Academy co-ordinator), some likely activities could include:

- observation of & feedback on teaching activities
- identification of developmental goals and strategies to achieve them
- advice on the design of learning activities and assessment tasks
- design of evaluation processes of teaching and learning activities
- advice on preparing submissions for AAEE conferences

The concept of the Academy and the role of mentor will evolve with time. Please complete the following questions and submit your responses as per the instructions at the end of this document.

Name: _____

Position or Job title: _____

University Name: _____

University Address: _____

Telephone number: _____

Email address: _____

Area of professional interest in engineering education (*for example authentic assessment, reflective practice, distance learning, etc.*): _____

- I agree to participate in an AAEE AEEE mentor's orientation meeting.
- I understand I am expected to attend, at a minimum, the 2022, 2023 and 2024 annual AAEE conferences, at no cost to AAEE, as well as other Academy events wherever possible.
- I give permission for your contact details to me made available to all AAEE Academy participants.
- I identify as Aboriginal or Torres Strait Islander (optional)

Signature: _____

Date: _____

Applications must be submitted any time. Please submit your signed EOI as a pdf by email to Engineers Australia (aaee@engineersaustralia.org.au) and using the subject heading: AAEE Academy Mentor EOI 2022. For further details, please contact Anne Gardner (Anne.Gardner@uts.edu.au) and thank you for your interest in the AAEE Academy for Early career Engineering Educators.
